

CAREER OPPORTUNITY

JOB TITLE: PROJECT DIRECTOR

Pakistan Refinery Limited is the most reputed Refinery listed on Pakistan Stock Exchange, seeking a Project Director to lead and execute a Refinery Expansion and Upgrade Project with investment of around USD 1 billion which is moving forward as the Refinery Policy has been approved.

The Project Director shall have the overall responsibility for successful delivery of the project, including development of project strategy, its execution within cost, schedule and quality targets while taking the safety & environment issues in full consideration. He/she shall also seek out expansion possibilities in allied businesses.

This is a contractual position based in Karachi and will report to MD & CEO.

RESPONSIBILITIES:

- Leads design and implementation of REUP within given budgetary allocations and approved time frames and is responsible for end-to-end delivery of the project starting from FEED through EPC and Commissioning.
- Develop key Project Objectives, Policies and Strategies, Project Execution Plan, Contracting Strategy & Contract, Project Risk Management Program and lead selection of qualified and capable FEED and EPC contractors.
- Ensure that Project CAPEX is estimated and budgeted based on robust financial principles and fiscal policies of the company to present a holistic view of project costs. Assist the Management to secure funding for the Project.
- Ensure compliance with Regulatory, Commercial, and HSEQ requirements.
- Liaise with government agencies for licenses approval requirements.

EDUCATION & EXPERIENCE:

- Should have an Engineering degree preferably Mechanical with Project Management qualification/certification.
- Should have at least Twenty (20) years of experience with Ten (10) years in a Senior Project Management role.
- Should have experience of leading complex multi plant, multi license mega capital projects for refinery, petrochemicals or similar industry.

TECHNICAL COMPETENCIES: Knowledge/understanding of Engineering Design & Construction, Project Management, Strategic & Operational Planning.

NON-TECHNICAL COMPETENCIES: Planning & Organizing, Transfer of Authority & Delegation and Customer & Quality Orientation.
